INTRODUCTION

The UI Data Summary is produced quarterly from state-reported data contained in the Unemployment Insurance Database (UIDB) as well as UI-related data from outside sources (e.g., Bureau of Labor Statistics and U.S. Department of Treasury). This database is maintained by the Division of Fiscal and Actuarial Services, Office of Workforce Security (OWS), U.S. Department of Labor.

This report is intended to provide the user with a quick overview of the status of the UI system at the national and state levels. Tables are provided for each state and many data items are repeated on summary tables, which show all states together. The glossary at the back of the report gives the definition of each data item in the report. Except for reciprocity rates, UCFE and UCX data is not included. Except for covered employment and wage data, which have a reporting/processing lag, all of the data refer to the same quarter. This quarter is shown on the front cover and is also the first column heading on each individual state page. The year and quarter are indicated by the notation CYyyyy.q (e.g. CY1995.4). For many data items, the report shows -- in addition to the latest quarter -- data for the latest twelve months, the highest and lowest quarters historically, and the state's rank among all states. If a state has failed to report for a particular time period, estimated data are used. However, if the time period extends too far for reasonable estimates, blanks are displayed instead.

Your comments and suggestions are welcomed. For further information, please contact Dyana Cornell at the Division of Fiscal and Actuarial Services, Mail Stop S-4231, 200 Constitution Ave., NW, Washington, DC 20210, phone (202) 693-3007 or cornell.dyana@dol.gov. You may also contact the receptionist at (202) 693-3039.
